Mapetex FG

Glass fibre reinforcing mat for Purtop Easy

WHERE TO USE
Glass fibre reinforcing mat used in combination with **Purtop Easy** (one-component polyurethane membrane).

TECHNICAL CHARACTERISTICS
Mapetex FG is glass fibre reinforcing mat made from chopped strands and is used to strengthen **Purtop Easy** one-component polyurethane membranes.

APPLICATION PROCEDURE
• Prepare the substrate as specified in the Technical Data Sheet for the waterproofing product.

• Apply the first coat of waterproofing membrane at the thickness specified and, while applying the membrane, lay the **Mapetex FG** mat on the surface and press it down with a flat spreader so that it is embedded in the membrane.

• Wait until the first coat of the membrane is completely dry.

• Apply a second, uniform coat of waterproofing membrane so that it completely covers the **Mapetex FG**.

PACKAGING
50 m long x 1 m wide rolls.

STORAGE
Store in a covered dry area.

SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION
Mapetex FG is an article that, according to current European standards (Reg. 1906/2007/CE - REACH), does not require a Material Safety Data Sheet. When using this product it is recommended to wear gloves and safety goggles and to follow the safety guidelines for the area in which work is carried out.

PRODUCT FOR PROFESSIONAL USE.

WARNING
Although the technical details and recommendations contained in this product data sheet correspond to the best of our knowledge and experience, all the above information must, in every case, be taken as merely indicative and subject to confirmation after long-term practical application; for this reason, anyone who intends to use the product must ensure beforehand that it is suitable for the envisaged application. In every case, the user alone is fully responsible for any consequences deriving from the use of the product.

Please refer to the current version of the Technical Data Sheet, available from our website www.mapei.com
